HOME COLLECTION

What we collected in our Collections is the inspiration of the places we have been and the places we want to be

All the emotions, feelings, colors, smells we experienced and the people we met inspired us. We appreciate nature for all the wonderful possibilities it is

We hope you would love our fashion as much as we do!

BARINE

Seyma had introduced with textile by sewing small garments to baby dolls when she was a little child. Ozan grew up in a textile city Denizli and had experienced different steps of textile production during his childhood.

Their both ambition to textile drove them to make their university degree in Textile Engineering faculty. The coincidences brought them together. After working at the same company for many years after graduation they decided to create their own collection

"Barine is like a fourth person in our house always with us, breathing, learning every moment we live. Barine is traveling with us, growing up with us, changing, improving and constantly updated. Maybe that's why we are so loved by different people from so many different places in the world. Every year we meet with our customers at world-renowned decoration fairs and what they are most curious about Barine all year round is what we have changed and how we bring innovations" says Seyma

"our affinity to fabrics makes every day an adventure. We look the product we have is a fabric and we define what kind of functions we can present to our customers with that and try to reinterpret them to a surprising product. But first we have to convince ourselves" says Ozan

www.thebarine.com

- Dream for future every moment
- Do living objects but in an unexpected form ; always with a unique design and in a leading style
- Produce to make customers feel good in and out home ; or at wherever you feel like home
- Present qualities promising comfort
- Rule the standards
- Bring inspirations and innovations to everyone's life
- Create expectations, create new standards
- Be a cause of the new approaches to the things we do for people
- Are here for all people of our earth looking for a sustainable future and would like to be in style
- Love Mediterranean way of being easy

- Do not hesitate to take action for making people follow our path.
- Do with happy people what we do at our Barine home
- Are transparent not only to all business partners but also to all of our colleagues
- Flexibility on our service because comfort is not only a product quality specification.
- Thinks an item without function is a mass so it is working for a sustainable world
- Produces all its products in its original line, but in a special way. Barine designs, makes it useful, objectifies, re-evaluates and makes it to provide optimum benefit. While designing Barine, it makes it become the cocoon of its own planet, creates a sense of belonging.

- Barine is a *young and dynamic* company focusing on reinterpreting the old traditional Textile Production of its Region
- Barine has its own *Production facility in Denizli / Turkey*
- Barine is famous for its different approach to the Textile materials and to present innovative forms of fabrics and products for many needs of consumers.
- Barine Collection is being sold at over *150 sales points worldwide.*
- Barine presents *3 different Collections;*
 - **Summer** (for pestemal towels and Summer Garments)
 - **Home** (home textiles and accessories for home and Homewear)
 - **The Little Barine** (hometextiles and garments for the kids)

WORD OF CEO

MOTTO: RESPECT NATURE

From comfort zones we watch on as Mother Nature fights the forces of over-population, reduced biodiversity and other environmental problems. We're reminded that there is no other time to start to control our common destiny and have a positive impact. We are paying respect to the planet and its habitants and best way to start this is to use resources in the best conditions possible.

Respecting helps us revive our relationship with nature and embrace a more holistic, 'circular' way of living.

It is still in our hands to protect our common future. Sustainability should be a global attitude and we are proud to have strategic sustainable growth targets. We believe in to give any efforts to make a Home & Living collection more sustainable each day that makes a difference. We are working hard to make not only our own collection but also our customer's collections more sustainable.

To us fashion is not just about looking good. It's also about doing good, doing what is right and feeling good about it – with respect for people and the environment. We reinterpret classics and give them a contemporary feel. We never compromise on style and Quality only. But at the same time, we make products that takes a stand.

BARINE's Strategic Sustainability Target; RESPECT NATURE

As an innovative collection developer and manufacturer of Home & Living concepts we are excited to announce our mid-term strategic sustainability goal. We aim to make at least 51% of our production only from sustainable raw materials within the next 5 years.

BARINE

BEDDING

Inspiration

The warm colours of soil and sand provide the organic reassurance of the raw and the real; a strong but never overpowering style and a relaxed, rural atmosphere.
